SPRING PRICE LIST OF GLADIOLUS 1942 GREETINGS

Once more it is my privilege to prepare a modest list to send on to you. Many things have happened since the last list was sent out. With our country at war, I can think of nothing more restful after a hard day's work than a place to relax and forget the cares of life, if that is possible. What better place could one find than in a nice bed of glads? You will find many changes of varieties in this list. It was my privilege this summer to go as far south as West Virginia and up through Ohio and visit the different glad growers, and I have added the varieties I found most outstanding to this list.

To my old Friends and Customers, I thank you for the patronage you have given me this past season, which is greatly appreciated.

Many of you visited FAIRYLAND GARDENS this summer. To you I say come again, and to you who have not yet visited the Gardens, may I say you are always WELCOME.

Yours for Finer Glads,

MAX L. LEAVITT.

Guarantee. We guarantee to please you. Anything we send out if it is not satisfactory return it and we will gladly refund your money. It is our intention to send out only the highest quality stock which is true to name and free of disease. Anything found otherwise will be cheerfully replaced or money refunded.

Extras. We include extras with all orders. If you would send a list of a few varieties you would like to try from which to select your extras, it would help us both. Postage paid on all bulbs from this list.

Premium Bulbs Free. To anyone sending in an order of \$5.00 or more and will promise a report when it blooms, we will send a medium bulb of a "new gray" seedling, No. GSS831. This is a wonderful new pink. We have grown it six feet tall with 6-7 open in the field. No crooking in this one, good habits. A large bulb with a \$10.00 order, and if your order totals \$15.00 we will include a couple blooming size bulbs of Autumn; and if it totals \$20.00 we will put in a bulb of Rose of Sharon for good measure.

DISINFECT ALL BULBS BEFORE PLANTING

May I urge you to disinfect all your bulbs before planting. As the old saying goes, an ounce of prevention is worth a pound of cure, and it really is not such a job as one might think to soak them. I understand that it is difficult to obtain Lysol, so if you are not able to obtain it, send to Beckwith Gardens, North Street, Manchester Center, Vermont. They have a disinfectant known as DELBETAR which is said to be very good which we plan to use this season. At this time, prices are as follows, postpaid: 2 oz., 45c; ½ pint, \$1.00; 1 pint, \$1.75. Directions for use come with same.

INTRODUCING

Blushing Mary (Young). This is a sport of MARY ANSTEEN, with same habits of that variety except that the color white is at times flushed pink with a rouge blotch nicely setting the flower off. After growing it a season, I like it very much and found it took very well with garden visitors. We have obtained the stock of this variety and are pricing it so you can afford to plant it this season. Large or Medium bulbs, 25c each; Small, 15c; Bulblets, 10 for 25c; 6 assorted Bulbs with 10 Bulblets for \$1.00.

After growing many seedlings for many growers this season, I found the following two varieties very fine and am listing them for the Rev. O. E. Spencer. These varieties will be named and introduced later, at which time they will cost you much more than the low price now asked:

#38 E 11. Very large pure pink with cream throat, with a blue cast over the entire floret. We just missed the Maine Glad Show by a day, with a spike with 12 open florets just under 7 inches. This spike was one of the finest I saw this season, going to two glad shows and driving nearly 5000 miles visiting glad farms. If you like them big and want something that will bring home the Blue Ribbons, give this glad a trial. L. or M., \$1.00 each.

#35 A 2. Clear, bright, rosy purple, this glad has plenty of sparkle and will open up a nice double spike. Fine growing habits. This received much favorable comment by garden visitors. You cannot go wrong by stocking this. L. or M., \$1.00 each.

COMMERCIAL GROWERS—ATTENTION!

We will be pleased to quote you wholesale prices on the Gray varieties.

Rose of Sharon (Gray). Here we have a new shade of lavender rose with the throat dusted like that of a Gloxinia. This was a great favorite with garden visitors and received much favorable comment. With us it grew about 5½ feet tall, opening 6-7, 4 to 4½-inch blooms on a spike of 20-22 buds. This grows as straight as an arrow, with facing and spacing excellent. An exceptionally fine keeper as a cut flower and well liked by the florists. Makes fine clean bulbs and is a good propagator. Bound to make many friends. L., \$2.00; M., \$1.00; S., 50c; Blts., 25c each.

Autumn (Gray). Here is something that is entirely different in the line of smokies. One that is very difficult to describe to do it half justice. My best description of it is reddish and yellow to brown of autumn with a small throat mark of yellow which greatly enchants the beauty of the flower. This opens up a fine spike with 5-6 open at one time. Facing and spacing excellent. The plants are fine and healthy, often reaching a height of six feet. Heavy propagator and bulblets grow like weeds. L., 50c; M., 35c; S., 20c; Blts., 5 for 25c, \$3.00 per 100.

Henet. Bright rose pink with a small American beauty throat blotch, opening 5-6, 5½ 7-inch blooms. (This can be grown very large.) Well faced and spaced. This is an extra fine commercial as well as exhibition variety. Broad upright and healthy foliage and fine propagator. This blooms along with Minute, which makes 100% cuttable spikes. L., 25c, 10 for \$1.50; M., 15c, 10 for \$1.00; S., 2 for 15c, 10 for 50c; Blts., 25 for 25c.

Henet's Favorite. Exhibition smoky old rose with cherry red throat blotch. Opens up a large, well placed spike with 8-12 large waved blooms open at one time. This has fine growing habits with no crooking. A fine all-around variety. L., 25c, 10 for \$1.50; M., 15c, 10 for \$1.00; S., 2 for 15c; Blts., 25 for 25c.

Leah Ann. Beautiful sparkling purple, nearly a royal purple, 6-9 medium blooms on a spike of 20 buds. Tall strong grower. This won first in its class at the Maine State Glad Show, 1940. You'll like it. L., 10c, 10 for 80c; M., 2 for 15c, 10 for 60c; S., 3 for 15c; Blts., 15 for 15c.

Miss Ann. This little lady is one of the most beautiful varieties grown, to my thinking. It does not grow over three feet tall and opens about 5 medium blooms at a time. Cream with a lavender cast, stamens are snow white, which greatly add to its original beauty. L., \$3.00; M., \$2.00; S., \$1.00; Blts., 25c each.

Airy Dream. A charming new variety that is ideal for making up baskets. The delicate pink blooms are poised like butterflies, well apart, on a long wiry stem. About 8 florets are open at once. L., 35c; M., 20c; S., 10c; Blts., 25 for 25c.

Alta (Young). Plant growth is fully as strong as Picardy with fine growing habits. Color is rather difficult to describe, but the general body color might be called a deep salmon pink or a light rose pink with marking of a deep maroon of a very unusual effect. With me this past season the blotch was plum colored. You cannot imagine how beautiful this flower is without seeing it. Open 5-7, 4½ to 5-inch florets with 4 in color. Excellent texture and always straight with broad, healthy foliage. Facing and spacing excellent. This created a sensation with the garden visitors and one they thought they all must have. Don't be fooled by the low price as there is a good stock on hand permitting a lower price. It is worth much more. L., 25c, 10 for \$2.00; Blts., 10 for 40c; \$3.00 per 100.

Aladdin. Huge ruffled light coral with white throat. Outstanding, one of the finest varieties. L., 15c, 10 for \$1.20; M., 2 for 15c, 10 for 60c.

Aladdin. Bright salmon with large cream blotch, extra fine. L., 15c; M., 10c.

Alayne. Beautiful shade of light rose, opening several large blooms with good habits. L., 2 for 12c; 10 for 50c.

Alchemist. Large, rich yellow opening, a large spike, early. L., 2 for 12c; 10 for 50c; M., 4 for 15c; 10 for 30c.

Algonquin. Brilliant glowing scarlet, opens 8-10 large ruffled blooms. A step ahead in reds. L., 15c, 10 for \$1.20.

Alice Reid. A fine large light pink and one of the first to bloom, which should be in every collection. L., 2 for 15c; 10 for 60c; M., 4 for 15c.

Alone. If you are looking for the unusual this is the number you want. The pink flowers have pockets and spurrs about half of ours were fully double. A fine novelty. L., 50c; Blooming size, 25c each.

Alt Wein. Fine, early, light blue, 6-8 open. L., 10c; M., 2 for 15c.

Allan Watt. Huge buff with carmine feather, opening a very large spike. L., 10c; M., 2 for 15c; S., 4 for 15c.

Allemania. Bright scarlet, larger and earlier than Koehl, but crooks bad in hot weather. L., 10c; M., 2 for 15c.

Amethyst. Deep lavender with darker throat blotch. 8-10 well placed ruffled blooms open, very good. L., 15c; M., 10c.

Amrita. Beautiful clear soft buff with yellow throat, 6 or more beautifully ruffled blooms open. L., 2 for 15c, 10 for 60c.

Amulet. A very beautifully ruffled new buff, 6-8 open. Should be in every garden. L., 15c, 10 for \$1.20.
